

Audience: mainstream

A clear overview of autism and the primary areas of difference associated with it from a diagnostic perspective. We will examine how these differences impact upon a child in an Early Years setting and how best to support children with autism over the course of their Early Years education. The course will take a developmental perspective looking at how children may have different strengths and needs as they go through the Early Years and how to support children with any behaviours that challenge.

Outcomes:

- To understand the main differences associated with autism
- To understand the main theories regarding the different ways of thinking in autism
- To be equipped with a range of strategies and interventions to support children with autism in the Early Years
- To examine practical resources for use in an Early Years setting to support autistic children
- To understand behaviours that challenge and know how to support children in managing and coping with these

Delegate fee: £195
