

Y7 Catch-up Grant

2018 - 19

The literacy and numeracy catch-up premium provides schools with an additional £500 for each year 7 pupil who did not achieve at least level 4 in reading and/or maths at the end of key stage 2. This is the case for all our pupils. In 2018-19 we spent the allocation of £500 on resources for our classes.

Our literacy and numeracy results show that when compared nationally to other year 7s working at similar levels and from the same starting points, our students are making expected progress.

In 2019-20, our allocation (which we expect to be about £500) is contributing towards new literacy resources.
