

PE & Sports Grant 2018-19

The Bridge Integrated Learning Space

The purpose of the PE & Sports Grant is to improve sports provision in primary schools. In 2018-19 The Bridge Integrated Learning Space received £1000.

This is the same as in 2017-18 Our grant has contributed towards enhancing our access to community by supporting us to maintain our minibus and car which are critical for getting students out to local parks and events. We have seen an increase in pupil access to the community including accessing squids club (a community based event), sports days and other local provisions.

We will continue to have a targeted focus on this for the coming year as physical and emotional wellbeing are a core priority of our work at the ILS.
